

ADAPTO FURNITURE.
ADAPTABLE AND
STYLISH.

For decades, we have been serving architects, contractors, trade partners, and plumbers worldwide with pioneering products such as the rimless toilet or the ultra-flat shower tray. But the market has never been more demanding than it is today. Clients and end-users demand improved sustainability and advanced performance. They demand beauty and simplicity in design.

We design our products with the demands of modern life in mind: pushing ourselves to achieve new levels of efficiency, offering elegant and inspirational design. Meanwhile, our decades of experience have taught us that there is always a better, more intelligent solution; and we never stop until we have found a way to offer you and your clients a product of higher standard.

ADAPTO FURNITURE. ADAPTABLE AND STYLISH.

We are aware that there is an infinite number of ways to create the perfect bathroom. Whether you prefer a modern design or timeless classical forms, we will provide the best solution for your project. The ADAPTO Collection was designed to ensure the ultimate freedom to match the individual elements so it can meet the highest requirements of your customers.

UTILITY

We are well aware that quality of life is better in a well-arranged room. This is why ADAPTO was designed with a view to keeping each item in the right and most convenient place regardless of the space. The modular furniture, the choice of various sizes and coatings, and the wide range of accessories allow the perfect arrangement of the available space without compromising its flawless style.

HIGH QUALITY AND ELEGANCE

We pay special attention to the design of all our products because the high quality of our production technologies is worth the perfect shape of every detail. Not only is the collection made of high-quality FSC-certified materials, but it also has a markedly modern appearance that is well suited for a wide range of living spaces.

ADAPTO is suitable for both classic and more creative and original configurations.

MODULARITY

ADAPTO is the result of our desire to offer a complete modular washbasin system designed for bathrooms in residential buildings as well as for luxury hotel projects. The collection includes basin units, basin structures, additional modules, worktops, and accessories. All components are designed to fit an infinite number of configurations and to complement various bathroom decors in an elegant and functional way for any project that requires a practical and high-quality solution.

COMPATIBILITY

The versatility of the ADAPTO collection provides endless possibilities for combinations of basin units, basin structures, worktops and accessories.

ADAPTO's design is compatible with our main collections of ceramic products, including vessels, countertops and under-countertop basins as well as traditional wall-mounted washbasins.

ADAPTO IN NEGOTIATIONS

The ADAPTO collection is intended to provide designers with solutions to even the biggest challenges in a project.

Due to its modern design, outstanding configuration versatility, and safety- and quality-certified products, ADAPTO meets all contract requirements and the high standards that apply in hotels, spa centres and public facilities.

PRODUCT RANGE

All items in the collection are FSC-certified and can be freely combined to create the configuration that best suits your idea or project. Our basin units, structures and worktops, available in four finishes, as well as the various connecting brackets and towel rails provide your imagination with endless possibilities.

ADAPTO's ease of installation is another aspect we are proud of because it considerably reduces the installation time for all new projects as well as for refurbishing of existing bathrooms.

TOWEL RAILS

WORKTOPS

BASIN STRUCTURES

LEGS AND CONNECTING BRACKETS FOR FREESTANDING FRAMES

BASIN UNITS

GUIDE FOR COMPOSITION

①

Choose basin structure.

②

Choose basin model and mixer.

③

Integrate any base units and combines with worktops.

Complete the composition with towel rails and leg frame floor standing.

EXAMPLES OF COMPOSITIONS

Basin Unit with
2 drawers 120 cm.

Connect Air vessel basin
rectangular 60x40 cm.

Basin Unit with
1 drawer 60 cm.

Vessel basin square
STRADA II 40x40 cm

Basin structure 85 cm with Leg for
frame and Frame bar 85 cm for
floor standing installation.

Vessel basin Ipalyss® 55x38 cm

Basin structure 150 cm.

Rectangular Countertop basin
Connect 50x40 cm.
